RE: ML 47005-BSLS Exploration/Mining  
DOGM # S/037/093

Gentlemen:

On May 19, 1996, you wrote a notice of intent to commence exploration/mining operations upon trust lands within the above numbered mineral lease. I responded by advising that a bond must be posted with the Trust Lands Administration prior to the commencement of operations. No bond was submitted and it appears that your proposed operations are indefinitely delayed. Your prior notification is considered out-of date and it is necessary that you re-notify the Trust Lands Administration and post bond at least 60 days prior to conducting any exploration or mining operations upon the lands within the lease. Please contact me if you have any questions in this matter.

Sincerely,

John T. Blake  
Mineral Resources Specialist
